P.K.W. - C. of P.

N. 1/4 cor. Sec. 32-77-2W

At point indicated by plat of survey as made for James Federlein by Central States Engineering Co. in June 1917, dug hole 5'x5' x 2ft. deep. Found almost square sandstone.

6"x5" x 4" buried 12" deep. This stone at the stone of which this is a part, was "used in 1854, 1880 and 1901 by George Bungardner, Cunningham and Campbell, each noting the same upon his plats at the Court House, quoting from a letter to Mr. Federlein from Cuth Young, Pres. of C.S. Eng. Co.

The location of this stone checks almost exactly with the findings of C.S. Eng. Co. in this survey for Mr. Federlein in June 1917, which called for 9 1/2 ft. S. of Cor. post and 4 1/2 ft. E. of feline N.

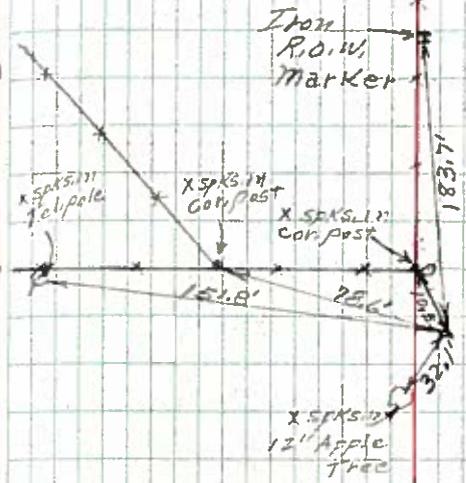

We found the stone 9 1/2 ft. S. of cor. post and 4 ft. E. of feline N.

lowered this stone & placed C.M. above stamped $\frac{29}{32}$ and buried 12" deep.
